

World Neurosurgery Webinar Conference 2020

November 20-22

www.surgicalneurology.org

Patron's Message

Miguel Á Arráez, MD PhD

Professor and Chairman of the Department of Neurosurgery
Carlos Haya University Hospital

University of Malaga

Chairman, Foundation of the World Federation of Neurosurgical
Societies (WFNS)

Vice President, World Academy of Neurological Surgery

Dear Friend all around the globe:

Great problems have great solutions. In this difficult time of the COVID lashing the whole planet, the neurosurgical world seemed to be also “temporarily closed”. Only initiatives like “World Neurosurgery Webinar Conference 2020” are able to keep alive the spirit of dissemination and exchange of the neurosurgical knowledge along with teaching purposes to our youngest colleagues. This academic activity is complemented with the empowering of friendship and camaraderie among the countries all over the world. That kind of elevated mission is linked to the endless list of initiatives of Ganesalingam Narenthiran, one of the most active and internationally recognized neurosurgeons. His tireless devotion to teaching and promotion of Neurosurgery will have again a deserved recognition of the neurosurgical community. It is with great honor and satisfaction that I provide this “Patron’s message” for the World Neurosurgery Webinar Conference 2020, completely confident about the value and success of this forthcoming webinar congress that we all will enjoy. Needless to say that the motto of the meeting (*Learning Together, Solving for All*) will be kept in our soul and heart after this exciting meeting!

Miguel Á Arráez
